License Agreement Types	O U.S. Government work
Payment	Applies only if your work was authored as part of your official duties as a United States federal government employee; such works are in the public domain in the US.
License Submission	O U.K. Government work Applies only to employees of the U.K. Government.
	Non-Governmental Organization work Applies only if the work was carried out during the course of employment by a Non-Governmental Organization.
	Other Government work Applies only to government employees outside of the U.S. and U.K.
	O Company/institution-owned work This does not typically apply to most universities and academic institutions. Applies when an organization, often a commercial corporation, owns the copyright of a work either because there is a specific clause in the author's contract of employment that states the company/institution's ownership of its employees' intellectual property, or it has been contracted ('made for hire').

Hindawi – How to Submit OA Request

<u>Hindawi</u>, a Full Gold OA publisher under Wiley, publishers <u>about 260 journals</u> in a wide range of disciplines. Authors submit articles to Hindawi journals through its submission system called Phenom.

Your institution's OA agreement with Wiley covers both of Wiley and Hindawi journals. If your OA request is approved by your institution's administrators, your APC (article publication charge) will be covered by the agreement.

When an author submits an article to a Hindawi journal and makes an OA request, the author goes through a slightly different workflow than that for Wiley journals.

- During the submission process, authors enter author information in "3. Manuscript & Author Details" (screenshot in the next page). If the information indicates that the Corresponding Author (CA) is affiliated with an institution that has an OA agreement with Wiley, the article will be automatically covered by the agreement.
- Please note that, in Hindawi journals, each article has only one CA. And each author cannot enter more than one affiliation.
- Once author details are entered, move on to the next step and complete the submission process. There is no specific step for submitting an OA request. Hindawi creates an OA request based on the affiliation information provided by the author, and forwards it to the author's institution.

The author will be notified by email of the decision (approved/denied) by their institution.
